

HP 2560 Bulk Printhead and Ink Cartridge

Achieve high-volume, high-speed print quality and good decap performance across a wide range of semi-porous substrates. And see how this bulk printhead and ink cartridge can benefit your business in many ways—from improved barcode readability rates to productivity and cost efficiencies.

Optimize barcode readability

Improve barcode readability rates with the print quality and optical density produced by the HP 2560 Bulk Printhead and Ink Cartridge. Achieve quality, consistent results on a wide variety of semi-porous substrates including aqueous overcoated and other glossy substrates.

Maintain high quality at high speed

Count on consistent printing performance and reliable results at production-volume print speeds. Durable prints¹ help you maintain high productivity. Good decap performance enables consistent print quality during intermittent printing.

Save time, gain cost efficiencies

Count on HP to provide a range of reliable, quality solutions designed to meet your needs. Built on HP's proven Thermal Inkjet technology, the simple, easy-to-replace bulk printhead and ink cartridge design enables lower costs of printing for high-volume production environments.²

Optimize your high-volume production

HP offers a bulk printhead and ink cartridge combination ideal for high-volume industrial printing operations. Get the same consistent, high-quality results and reliable, trouble-free performance. Add an easy-to-use high-volume ink cartridge and bulk printhead, designed together to minimize operator intervention, and maximize your productivity—and your profit margins—over large print runs.

Applications

- Mail addressing
- Product identification coding and marking

Key highlights

HP 2560 Bulk Printhead and Ink Cartridge, with Original HP pigment-based inks, designed to provide high-volume, high-speed print quality, excellent barcode readability, and good decap performance across a wide range of semi-porous substrates:

- Ideal for high-volume production environments
- 350-ml ink cartridge minimizes operator intervention
- Easy-to-replace, high-volume bulk ink cartridge connects directly to the HP bulk printhead
- Substrate variety, including aqueous overcoated and other glossy substrates
- Excellent print quality, barcode readability
- High optical density
- Durable, rub resistant prints¹
- Decap performance enables consistent print quality during intermittent printing

¹ Dry and oil rub resistant based on internal HP testing.

² Compared to individual print cartridges.

HP 2560 Bulk Printhead and Ink Cartridge

Technical Specifications

	Printhead	Bulk ink cartridge
Resolution	Up to 600 dpi	N/A
Nozzle count	300	N/A
Print swath	12.7 mm (0.5 inch)	N/A
Maximum firing frequency	10 kHz	N/A
Average drop volume	30 pl	N/A
Average delivered ink	Up to 800 ml	350 ml
Number of electrical interconnect pads	52	52
Operating conditions	5 to 40° C, 15 to 90% RH	5 to 40° C, 15 to 90% RH
Shipping/storage conditions	15 to 35° C, up to 90% RH Altitude: 0 to 5000 meters Orientation: nozzles up or side	15 to 35° C, up to 90% RH Altitude: 0 to 5000 meters
